Eligibility

Children and adult Behavioral Health serves individuals ages 3 and up, with a mental health diagnosis or who are experiencing any behavioral issues that are negatively impacting them socially, academically or within the family structure.

Benefits To Receiving Treatment

National statistics show that one out of four children will have a mental illness during childhood. Children diagnosed and treated are more likely to succeed at home and in the community.

In adults positive behavioral and mental health allows them to work more productively, cope better with everyday stress, maintain a positive outlook, and engage in healthy habits.
